*Ill Effects* Martin Barker, Julian Petley, 2002-09-26 The influence of the media remains a contentious issue Every time a particularly high profile crime of violence is committed there are those who blame the effects of the media The familiar culprits of cinema television video and rock music have now been joined particularly in the wake of the massacre at Columbine High by the Internet and the World Wide Web Yet any real evidence that the media do actually have such negative effects remains as elusive as ever and consequently the debate about effects frequently ends up as being little more than strident and rhetorical appeals to common sense *Ill Effects* argues that the question of media influence needs to be debated by those with a clearer understanding of how audiences and media interact with one another Analysing the failure of the effects approach to understand both the modern media and their audiences this second edition examines the influence of the effects tradition in America the United Kingdom Australia and Europe as well as the role of the British Board of Film Classification Contributors examine the increasing number of stories about the alleged ill effects of the Internet and enquire whether this is a prelude to and a crude attempt to legitimise the imposition of tighter controls on new media *Ill Effects* is a guide for the perplexed It suggests new and productive ways in which we can understand the effects of the media and questions why many in media education accept a simple interpretation of the effects debate particularly at times of moral panic Refusing to adopt the absurd position that the media have no influence at all *Ill Effects* reconceptualises the notion of media influence in ways which take into account how people actually use and interact with the media in their everyday lives Martin Barker Sara Bragg David Buckingham Tom Craig David Gauntlett Patricia Holland Annette Hill Mark Kermode Graham Murdoch Julian Petley Sue Turnbull

**The Mediatization of Culture and Society** Stig Hjarvard, 2013 Mediatization has emerged as a key concept to reconsider old yet fundamental questions about the role and influence of media in culture and society In particular the theory of mediatization has proved fruitful for the analysis of how media spread to become intertwined with and influence other social institutions and cultural phenomena like politics play and religion This book presents a major contribution to the theoretical understanding of the mediatization of culture and society This is supplemented by in depth studies of The mediatization of politics From party press to opinion industry The mediatization of religion From the faith of the church to the enchantment of the media The mediatization of play From bricks to bytes The mediatization of habitus The social character of a new individualism Mediatization represents a new social condition in which the media have emerged as an important institution in society at the same time as they have become integrated into the very fabric of social and cultural life Making use of a broad conception of the media as technologies institutions and aesthetic forms Stig Hjarvard considers how characteristics of both old and new media come to influence human interaction social institutions and cultural imaginations

**Ghosts on the Somme** Alastair H. Fraser, Andrew Robertshaw, Steve Roberts, 2009-04-19 The Battle of the Somme is one of the most famous and earliest films of war ever made The film records the most disastrous day in the history of the British army 1 July 1916 and it had a huge impact when it was shown in Britain during the war Since then images from it have been repeated so often in books and documentaries that it has profoundly influenced our view of the battle and of the Great War itself Yet this book is the first in depth study of this historic film and it is the first to relate it to the surviving battleground of the Somme The authors explore the film and its history in fascinating detail They investigate how much of it was faked and consider how much credit for it should go to Geoffrey Malins and how much to John MacDowell And they use modern photographs of the locations to give us a telling insight into the landscape of the battle and into the way in which this pioneering film was created Their analysis of scenes in the film tells us so much about the way the British army operated in June and July 1916 how the troops were dressed and equipped how they were armed and how their weapons were used In some cases it is even possible to discover what they were saying This painstaking exercise in historical reconstruction will be compelling reading for everyone who is interested in the Great War and the Battle of the Somme
